

## AUDITION

The Sursaut Dance Company will be holding auditions for male and female dancers, for ***ECHOS***, its next production for young audiences.

After having confided the last two company productions to up and coming young artists, Francine Châteauvert plunges once again into choreographic creation. *Echos* suggests a vision of an ideal world, where humans live in strong complicity with nature and its cycles. In a dreamlike set, cohabited by different generations, the choreography is prompted by the joie de vivre of unusual characters, optimistic about the world to come.

Candidates possess a strong background and training in contemporary dance, have extensive professional performing experience, are in excellent physical condition with versatility in movement styles.
